

MATCHING CARD GAME AND METHOD OF PLAYING SAME

ABSTRACT OF THE DISCLOSURE

Disclosed herein are methods for playing a card game, as well as decks of cards
5 for use with a card game, wherein the object of the game is for one of a plurality of
players to discard all cards dealt to him before the others players. One embodiment of a
method includes providing a deck of cards having a plurality of playing cards. Each of
the plurality of playing cards has at least one visual indicium displayed on it, wherein
the playing cards collectively have a plurality of visual indicia displayed on them. The
10 method also includes dealing at least one of the plurality of deck of cards to each of the
plurality of players, and selecting at least one of the plurality of visual indicia for
matching the dealt cards. In this embodiment, the method further includes discarding
one of the dealt cards by each of the plurality of players in a predetermined manner in
response to the selecting of the at least one of the plurality of visual indicia. The
15 discarded cards face up in order to reveal its corresponding visual indicium. Also, the
method includes striking one of the discarded cards by each of the plurality of players
when the revealed visual indicia of the discarded card matches the selected at least one
visual indicium. Moreover, the method includes collecting all of the discarded cards by
the last one of the plurality of players to strike the discarded card matching the selected
20 at least one visual indicium.
